PROFESSIONAL SUMMARY

QA Engineer with experience in manual testing, API validation, SQL-based defect investigation, and technical support. Builds practical tools and reusable API workflows to support testing, with domain knowledge in sports betting and fantasy sports. Seeking full-time or project-based work in software QA, API testing, or technical support.

CORE SKILLS

Testing: Manual, smoke and regression testing; test planning and case design; defect reporting and triage; Jira, Zephyr and Confluence

API and data: Postman collections, scripting and chained requests; REST APIs; cURL; Oracle and PostgreSQL; DBeaver

Debugging: Tomcat/Linux server logs; HTTP traffic inspection with Wireshark; API-level issue reproduction

Development: JavaScript, Node.js, Express, HTML and CSS; PowerShell and WinForms; Java full-stack bootcamp

Automation foundations: Playwright, Cypress, Selenium WebDriver with JavaScript/Mocha

Domain knowledge: Sports betting markets and settlement; live sports operations

PROFESSIONAL EXPERIENCE

QA Engineer Mar 2026 - Present

LotusLabs Inc.

- Test sports betting workflows across multiple environments, including bet settlement, pool betting (Toto), bet builder and risk management.
- Investigate defects using Oracle/PostgreSQL queries, Tomcat/Linux logs and API reproduction, including settlement race conditions and constraint violations.
- Built a Node.js/Express and Oracle data explorer for event, market and outcome records, plus a PowerShell WinForms tool for event creation and resulting through REST APIs.
- Organize reusable Postman workflow and debug suites with scripted token extraction and chained requests; document defects in Jira and test cases in Zephyr.

Gametime Support Specialist Sep 2023 - Mar 2026

Sourcefit Inc.

- Resolved customer queries about match results and betting markets during live U.S. sporting events.
- Supported the Scoring team with play-by-play updates, league news and injury monitoring for real-time market adjustments.

Software QA / L1 Helpdesk Support Oct 2021 - Sep 2023

LotusLabs Inc.

- Tested software functionality and identified defects; created and executed test plans and cases aligned with requirements.
- Participated in daily stand-ups and sprint reviews to coordinate testing with the development team.

IT Support Staff Mar 2020 - Oct 2021

Cemex Philippines

- Provided on-site and remote troubleshooting support, maintained the service-procedure knowledge base and streamlined office workflows.

PROJECT

Fantasy Score Calculator | HTML, CSS and JavaScript

- Built a web app that calculates fantasy scores from player statistics using a configurable scoring chart.
